Explore the latest technologies, and turnkey solutions that will help your business stand out and be seen.

EFI™ Pro 24f **Wide Format Flatbed Printer**

Exceptional quality at production speeds, broad color gamut and optimized ink usage. This system brings the most powerful features from LED and variable-drop grayscale head technology to a true flatbed design with a moving gantry and a multi-zoned vacuum table.

Colex® Sharpcut™ **Wide Format Flatbed Cutter**

The SX Series are powerful systems that provide unmatched productivity by finishing graphics with accuracy and efficiency. With up to a 10' x 10' work area coupled with six independent vacuum zones, this system gives users exceptional registered output.

RICOH Pro C7210X **Graphic Arts Edition Sheet-fed Press**

Go beyond CMYK with Ricoh's 5th Color Digital Production System to deliver high-value, premium applications that stand out from the competition. Gain the creative control and automation tools to set your business apart in a world of 4-color printing.

EFI™ Pro 16h **Wide Format Hybrid Printer**

Diversify your business while saving space with this hybrid wide-format printer that can run roll-fed or flatbed print jobs on one device. Offer your customers more specialty and high-value output on a broad range of media, including soft signage and rigid substrates up to 2" thick.

SEAL® 62 Pro S Laminator **Wide Format Finisher**

A wide mounting laminator and encapsulator offering industrial performance at exceptional value. With fully adjustable top roller temperature, speed and pressure settings, the SEAL 62 Pro S is ideal for the more experienced operator. The 62 Pro is ETL Certified in the US and Canada.

RICOH Ri 6000 **Direct to Garment Printer**

The Ri 6000 print-on-demand Direct to Garment (DTG) printer delivers photo-quality prints directly to a wide range of apparel and promotional items. This durable, easy-to-use system can produce custom garments in seconds for improved profitability on quantities from one to 1,000+.

We will also be announcing two new wide-format systems.
